ALEXANDRIA.

[Special Correspondence Richmond E. Quirer.]

ALEXANDRIA, VA., June 16, 1874.—I may last letter from this place I had to look at the dark side of the picture and see what had kept back our city. It will now be my more pleasant task to speak of what has been accomplished in the way of improvement since the war closed. One of the first things done upon the return of our merchants was to build the small steamer Virginia, which connects us with the Maryland shore opposite. The management of the Orange and Alexandria railroad, as soon as put in possession of their road, which was held by Government, went to work and put it in running order to Lynchburg and shortly afterwards the consolidation of this road and the Manassas Gap road formed the Orange, Alexandria and Manassas Railroad, and this branch was rapidly completed to Harrisonburg in the Valley.

But I cannot take your space to enumerate each and every enterprise undertaken and accomplished by our citizens. To sum them up, we have here now in the way of communication with the outside world, the Virginia Midland railroad (formerly Orange and Alexandria) to Danville; Washington and Ohio, to Fargerville, in Loudoun county, and being built surely if not rapidly westward; the Alexandria and Washington railroad to Washington and connecting with trains North and West, by B. & P. and B. & O. Railroads; the A. & P. Railroad to Richmond; the R. F. & P. Railroad to the East Alexandria R. R., opposite the city, to Baltimore via B. & O. Road, freight line; the Manassas Branch of the Midland Road, connecting with the Valley Road at Strasburg to Harrisonburg and Staunton. We have hourly communication with Washington by the Potomac Ferry Company, weekly steamers to New York and Philadelphia; three lines of steamers to Baltimore, and a semi-weekly line of steamers to Norfolk; the Maryland Ferry; daily steamers to Mount Vernon and Annapolis; also a weekly trip down the Potomac to Curranville and the Potomac landings. We thus have an increased communication with the outside world. As to our internal interest, we have the work shops of the Midland and the Washington and Ohio railroads, from which some of our fine cars are turned out as are made in the Union. The Mount Vernon cotton factory is one of the largest cotton factories in the State. We have three furniture manufacturing, two planing mills, a cracker factory, a spoke factory, three plaster mills, one boiler and iron works, several corn and flour mills, a large distillery, two soap factories, two national banks, three savings banks, besides several banking houses, a broom factory, a large pottery, an extensive tannery, a willow-work factory, and two daily newspapers, a weekly religious paper and a monthly literary and home journal, two successful building associations, two lime kilns, and a ship yard is being started; also, a number of minor industries which can hardly be styled manufacturing, yet affording work for skilled men and women. The city has increased in population several thousands. Business generally is as good as in other localities. Over \$1,000,000 has been spent in buildings, and each year new interests are started. With all these (and this letter gives but a slight idea of the extent of our work) signs of prosperity it seems absurd to talk or write of a dead town.

ANNEXATION.

That portion of the District of Columbia which was ceded by Virginia as part of the federal capital is known as long ago ceded back to Virginia. Thus the territory of the seat of government consists now entirely of the portion ceded by the State of Maryland. But we notice that the New York Journal of Commerce, referring to the disgraceful failure of the system of government in the District, remarks that its separate existence should be abolished. It is to be hoped (it says) that in process of time intelligence and thrift may pervade all ranks of its population; and then when it has become as other portions of our country, there will remain no reason why, like other portions, it should not form part of a State. The Journal adds:

"That the liberty of action of the federal government, and the safety of the deliberations of Congress, depend on the exercise of exclusive jurisdiction over that little territory, is ridiculous. The federal government in all its branches has ample power, in law and in fact, to exercise all its functions in any part of the United States; and we hope the time is not far distant when the people of the District of Columbia will be no longer debarrd from the rights of American citizens, and when a Congress assembled, at great expense, from distant parts of the Union, and overwhelmed with the vastness of the national business, will cease to concern itself with affairs that would be much better dealt with by a Board of Aldermen."

We of Maryland will very cheerfully receive back our long separated brethren whenever they determine to fly from the evils they now suffer under. They would certainly not be coming to others that they know not of. Their old mother State has always been solicitous for their welfare, and is so yet.—B. L. Sun

FOR SALE.

STEAM FLOUR MILL FOR LEASE—SITUATED ON THE POTOMAC RIVER, AT ALEXANDRIA.

This property has recently undergone the most thorough repairs, and been arranged for the manufacture of the highest grades of flour.

It contains four run of Burrs, with Rubbers, Centrifugal Dusts and the most improved Bolting Cloths, of sufficient capacity to manufacture two hundred barrels of flour a day.

The Engines and Boilers will afford power for all requirements of the Mill.

Having an extensive wharf on the one side and a connecting track with all the various railroads leading into the city on the other, grain and flour can be handled at the lowest figures.

When desired, the facilities afforded by the numerous railroads leading from the West and Southwest will enable wheat from those sections to be landed in Alexandria without break of bulk at the lowest competing rates.

This favorite "Valley" and "Friedman" wheat, which is so much sought after by millers in other cities for the manufacture of choice brands of flour, is received at this point in large quantities direct from the farmers.

Attention is particularly called to the fact that coal and co-purchase—two important items—are as cheap here as at any point on the seaboard, and the nearness to all the Eastern markets and the seat of Government make this one of the best locations in the country.

Application for lease can be made either by letter or in person to

FOR SALE.

REAL ESTATE IN ALEXANDRIA CITY AND COUNTY.

The undersigned, in accordance with the provisions of the will of Robert H. Miller, offer for sale the following pieces of property in the city and county of Alexandria, in the State of Virginia.

The terms of sale will be agreed upon at the time of the sale, and will be easy and liberal to the purchaser.

First: The large, well built and convenient three-story BRICK DWELLING, known as No. 77 Washington street, situated on the east side of said street, between Queen and Prince. This house is supplied with all the modern conveniences, including gas and water, a first rate kitchen range, a steam heating apparatus of Gould's patent, &c. The lot on which it stands fronts 100 feet on Washington street, and runs through the square to St. Asaph street, and contains about 28,000 square feet, or nearly one acre of land, and is in beautiful order. It contains a variety of choice fruit trees—pear, apple, quince and cherry, a fine English walnut tree in full bearing, a good collection of small fruits, strawberries, raspberries, currants and gooseberries, good asparagus beds, and a large number of fine rose bushes and other shrubs and plants. A more desirable residence than this is not to be found in the city.

Second: A two-story RESIDENCE, front building frame and back building brick, on the east side of St. Asaph street, between King and Prince, with suitable out buildings, on lot fronting 40 feet on St. Asaph street and running back of same width to the depth of 32 feet.

Third: A LOT on the west side of Washington street, between Duke and Wolfe, fronting 78 feet 5 inches on Washington street and running back 114 feet to an alley 11 feet wide. There is a large FRAME TENEMENT on this lot.

Fourth: The property at the southwest corner of King and Pitt streets, fronting 61 feet 6 inches on King street and 111 feet 7 inches on Pitt, consisting of SEVERAL STORES, occupied at present by Thomas Hoy and others.

Fifth: A LOT OF LAND fronting 52 feet 3 inches on the east side of Water street and running through the square to Union street, of uniform width, and of a depth of 301 feet.

Sixth: A WATER LOT at the northeast corner of Union and Queen streets, fronting 67 feet 7 inches on Union street and running back of same width to the Port Wardens line, having the advantage of dock room of 33 feet, being the north half of Queen street. Sold subject to an improvement lease to T. J. McHale.

Seventh: A LOT situated on the east side of Union street, between Prince and Duke, fronting 30 feet on Union street and running of that width into the Potomac. This lot has a wharf front of 38 feet, and has on it two large and commodious WAREHOUSES—one fronting on the Strand, now occupied by B. H. Lambert, and one on Union street, occupied by R. M. Lawson.

Eighth: A LOT OF GROUND near the Stone Bridge, on the south side of Duke street, having a front on said street of 47 feet, and running back to the Alexandria and Fredericksburg Railroad, containing about 34 acres. This lot contains a never failing spring of good water, and is bounded by the west bank of Hoff's run, with the privilege of using its water. The terminus of the Street Railway is on it, and it is susceptible of division into building lots, which would be very desirable for mechanics and others wishing to make homes for themselves.

Ninth: A TRACT OF LAND in Alexandria county, near to but outside of the city limits, containing 13 or 14 acres. The east line of this lot, 100 feet long, binds on the Alexandria county, and the west line binds on the Washington Railroad and turnpike bind on it the west. This tract being in one compact body, offers singular advantages for a large manufacturing establishment, and being beyond the city limits it is offered to persons doing business in Washington who may desire to avail themselves of the much greater economy of living in Alexandria.
